

## **QE** QUINTESSENTIAL EDUCATION STAY ON TOP OF THE GAME

QE is Singapore's leading provider of tutorial and university admissions programmes for IB and IGCSE students. We believe students shine in a holistic environment, one where nurturing educators serve as role models in an immersive culture of smart learning and personalised teaching. Hence, we dedicate our time to develop quality teaching materials and constantly review them to provide only the best. Comprehensively designed, our highly rated E3 teaching model educates through exam exposure, key content mastery, and targeted practice.

QE students consistently outperform the national average across major examinations. Many also excelled with our hallmark university admissions programme and secured offers from competitive Law, Medicine, Ivy League, and Oxbridge colleges. More than a source of tutorial services, QE encompasses a highly regarded brand of education designed to promote academic success and character development.

QE's curriculum is intelligently designed by top IB examiners and Oxbridge graduates. Using high impact learning strategies and a quality teaching framework, our definitive courses prepare IB and IGCSE students for their various assessments and exams, setting them up for academic success.

IB/IGCSE  
SPECIALIST

# CURRICULUM DESIGN PRINCIPLES

Today's academic curricula are increasingly rigorous. Memorising textbook content no longer suffices. As IB and IGCSE specialists, QE tutors commit over 20 hours a week to review, write, and design up-to-date materials.

Our highly-rated teaching model focuses on definitive drills and key questions analyses to monitor learning outcomes, recognise learning gaps, and promote effective learning methods.

This approach to learning encourages simultaneous acquisition and development of conceptual knowledge and application skills.

## KEY FEATURES:

### Question Analysis

Question exposure and trend analyses set key learning objectives and monitor learning needs

### Concise Notes

QE's highly rated classroom materials are intelligently designed to effectively condense textbook content

### Hands-on Practice

Learn key content effectively through hands-on practice and surefire strategies to solve all question types

### Timed Trials

Simulated exam practice helps students develop exam skills, time management, and problem-solving abilities

### Consultations

Post-practice reviews identify learning gaps, reinforce learning outcomes, and leave no questions unanswered

# HELPING STUDENTS SUCCEED

## THANAKHOM

ANGLO CHINESE SCHOOL  
(INTERNATIONAL)

ENGLISH (IGCSE): C TO A

*Before starting Eng tuition with QE, not only was my understanding of lang concepts shaky, but also I was doubtful of my written answers. After having tuition, I was much more confident in my answering ability and was able to appreciate and enjoy the subject much more than before.*

## HARU KIM

UNITED WORLD COLLEGE  
(DOVER)

ECONOMICS (IGCSE): B TO A\*

*Economics lessons at QE allowed me to understand the course and the syllabus thoroughly, not leaving any doubts before the final exam. I would like to thank Mr. Sean Lim for his great classes and tremendous help in the model answers and timed practice we went through in the courses.*

## PARK HA JOONG

AUSTRALIAN  
INTERNATIONAL SCHOOL

MATH (IGCSE): B TO A\*

*Jayden is a dedicated teacher who always helps with consultations after class. His lessons are engaging and useful as I've learnt many skills not taught in school. Jayden ensures we grasp the skills and concepts taught by giving many practices and feedback in class and at home.*

## NICOLE TEO

ANGLO CHINESE SCHOOL  
(INDEPENDENT)

ECONOMICS (HL): 5 TO 7

*Going for economics tuition helped me revise everything that I learnt in school. Sean was also very kind and understanding, answering any questions I had and taking the time to review my work. I was also able to receive more resources to study as Sean provided very concise notes. These helped me understand the kind of answers I should be providing for my exams and I was able to achieve a grade of 7 for my final IB.*

## NAVEEN L

SAINT JOSEPH'S  
INSTITUTION

CHEMISTRY (HL): 3 TO 7

*After repeatedly failing Chemistry, I decided to join Quintessential. With only 5 months left to the IB examinations, Mike managed to guide me and help me achieve a grade 7 in Chemistry. The class dissected questions and helped to explain everything in detail. Also, Mike identified my problems at the root and taught me how to overcome it which is why I went from getting a grade 3 to a grade 7 in a mere 5 months.*
